The Smart Choice

Disclaimer:

- **This chart should be used as a guide, not a rule.**
- Each manufacturer has designed their sizer to fit their hanger models such that they will pass the VICS standard (4.2.3.2 Size Indicator Design)
- Since Mainetti began the SOHS sizer program the other manufacturers tried to design their sizer to fit both their models as well as Mainetti's.
- Hanger manufactures change their hangers and sizers periodically so this information could be unreliable at times. I will do my best to keep this chart up to date as best as possible.
